9. TECHNICAL QUESTIONS

**1. AREA DEVELOPMENT DISTRICTS (ADD's)**

Added in 2004. Results for Area Development Districts (ADD's) are now reported. Kentucky's counties are grouped into 15 regions known as Area Development Districts, or ADD's. ADD's are a means by which local elected officials and citizens unite to provide for the planned growth of their area. An ADD is therefore a regional organization that assists in the formulation and implementation of human resource and infrastructure related plans.

**2. CHANGES IN SCHOOL and DISTRICT SCORES**

Although some new schools have been opened, and other schools have closed, results are reported only for schools that were open at the end of the 2003-2004 school year.

**3. MODEL LAB SCHOOLS**

MODEL LAB ELEMENTARY (606450), MODEL LAB MIDDLE SCHOOL (606455), and MODEL LAB HIGH SCHOOL (606460) are now included in Madison County totals. The Model Lab schools have a special relationship with Eastern Kentucky University. However, since these schools are technically public schools under the governance of the Madison County Board of Education, the schools are included within the accountability system and school indices are therefore calculated. The schools codes are:

MODEL LAB ELEMENTARY (365450)  
MODEL LAB MIDDLE SCHOOL (365455)  
MODEL LAB HIGH SCHOOL (365460)

**4. SCHOOLS NOT INCLUDED IN DATA SUMMARY**

This data summary includes only schools that are under the governance of a local board of education. Excluded from this summary are the federally dependent schools at Fort Knox and Fort Campbell and the two schools operated by the State Department of Education, the Kentucky School for the Deaf and the Kentucky School for the Blind.

**5. SCHOOLS WITH NO ACCOUNTABILITY GRADES**

Some schools have no grade at which accountability assessment occurs (grades End of Primary {EP or 3}, 4, 5, 6, 7, 8, 9, 10, 11, or 12). Schools with no accountability grade will share the accountability results of the schools into which they promote their students. These schools are not included on the printed report or on the databases. National Norm Referenced Test scores are included in the calculations for the Long-Term Accountability model and are reflected in schools that include grades Primary (P), 6 or 9.

**6. JOINT SCHOOLS**

Joint Schools are reported on the school files. Joint Schools are a school(s) that is combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade. Each Joint School has a combined record and an individual school record for the schools that comprise the Joint School. The file layouts contain non-reported control fields to assist in sorting, merging and reporting of the Joint Schools.

- c = School is accountable though school's scores and district non-academic data for the baseline years.
- d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.
- e = Reconfigured School or New School in 2002-2003 school year. The school's baseline index is the two-year average of the school's 2002-2001 and 2001-2002 scores but is computed with the district's 2002-2001 and 2001-2002 non-academic index at the corresponding grade level. The goal line, assistance line and novice reduction rate are calculated from the school's scores and district non-academic data for the baseline years 2000-2001 and 2001-2002.
- f = Reconfigured School that is using the District Baseline (goal) for Accountability. School's baseline index, goal line, assistance line and novice reduction rate are based on district scores at the high school level. Due to incomplete non-academic data, district non-academic data are used to calculate the school's non-academic index. This is a special case for new high schools that do not have all grades in the prior year.
- r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.
- s = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
- w = State Board approved school configuration waiver for calculation of accountability scores.

**SHARE**      A unit of money as appropriated by the General Assembly for distribution to schools, and is determined by the total amount of money available for rewards in a biennium and the total number of shares to be awarded.
